Initial Posting of CHNA Report to Hospital Web Site: December 22, 2022

INTRODUCTION

Grand Lake Health System is a mission-driven nonprofit healthcare provider serving residents of the Grand Lake Region of West Central Ohio since 1953. From multiple centers of excellence and affiliated practices throughout the region – including Joint Township District Memorial Hospital (JTDMH) in St. Marys – we focus on creating personalized care experiences that emphasize communication, education, wellness and prevention to improve the health and quality of life of our families, friends and neighbors living in the community we serve.

Grand Lake Health System and its affiliated health centers are organized as a charitable, non-profit community health system offering a wide range of primary, acute and rehabilitative services to the residents of the Grand Lake region. The anchor of the Grand Lake Health System is JTDMH. JTDMH opened its doors on May 5, 1953 and today is the main cog of the Grand Lake Health System. JTDMH has grown to a state-of-the-art community hospital including over 800 medical professionals, 150+ physicians, 12 affiliates and 10 Centers of Excellence. JTDMH's commitment to providing exceptional quality medical care continues.

Our deep commitment to the community is demonstrated through a wide variety of sponsored outreach programs. It is the goal of Grand Lake Health System to promote good health and prevent illness. Such programs include, but are not limited to the following:

- Call A Nurse – puts you directly in touch with a friendly registered nurse specially trained to answer your health questions and if needed, find a doctor.
- Childbirth Education – educates the mother and her support person with options that are available during her stay.
- Diabetes Support Group – provides support to individuals living with diabetes and their families through education and friendship that empowers individuals to take control of their diabetes and enjoy a high quality of life.
- Grand Health Challenge – designed to transform thinking, and even more important, behavior with regard to the individual's health.
- JTDMH Wellness Fairs – free general health screenings and access to testing for specific health problems.
- Make Believe Hospital – a program that familiarizes young children with hospital procedures in a fun, relaxed way.
- Wellness Education and Screenings – Grand Lake Health System offers a variety of Wellness Education and Screenings.
- Prostate Screenings – free PSA screening offered in September to men between the ages of 55 – 75.
- Group Lifestyle Balance Program – assists people in making lasting changes to delay Type 2 Diabetes and lower heart disease.
- Sport Physicals – offered to students in grades 7th – 12th at St. Marys, New Bremen and Celina High Schools.
- Parkinson's Support Group – Physical and Speech Therapy Exercise program and support group for people who have Parkinson's Disease.
- Babysitting 101 – Babysitting training program offered to children in the 5th, 6th & 7th grades.

- Patient Centered Medical Home (PCMH) – A patient focused model of healthcare delivery that puts you and your doctor in control of your health and wellness.

JTDMH received the following certifications and was the recipient of the following awards in the past three years.

JTDMH is pleased to present this Community Health Needs Assessment (CHNA) report to fulfill a requirement in the federal Patient Protection and Affordable Care Act, enacted in March 2010, requiring every tax-exempt hospital to conduct a CHNA to identify and prioritize the significant health needs of the community and develop an implementation strategy to address those significant

health needs identified. To conduct the 2022 CHNA, JTDMH solicited input from individuals who represent the broad interests of the community. We wish to thank our staff and community partners who participated in the process.

Written comments on this CHNA report and related Implementation Strategy may be submitted to Lesia Arnett, Executive Director of Development, Marketing & Outreach, Joint Township District Memorial Hospital, 200 St. Clair Street, St. Marys, Ohio 45885 or larnett@JTDMH.org. Any written comments received will be considered in conducting the next CHNA. You may contact Lesia Arnett at 419-394-6354 or larnett@JTDMH.org to obtain a copy of this CHNA report at no charge.

A. EXECUTIVE SUMMARY

Joint Township District Memorial Hospital (JTDMH), located at 200 St. Clair Street, St. Marys, Auglaize County, Ohio 45885, is a short-term acute care hospital. The community served by JTDMH is defined as Auglaize and Mercer Counties. In conducting this community health needs assessment (CHNA), we identified community data sources and solicited input from those representing the broad interests of the community. The CHNA steering committee met on June 23, 2022, to review information, identify significant health needs of the Auglaize County and Mercer County community, prioritize the significant health needs, and identify potential actions and resources to address the needs.

The following significant health needs were identified and prioritized.

1. Social determinants of health – specifically housing and homeless, diversity/equity/inclusion/culturally sensitive care, maternal and pediatric care
2. Access to care – specifically mental health providers, health screenings for adults and children, Medicaid providers of dental services, Alzheimer’s/dementia units
3. Health behaviors to address obesity, heart disease and stroke – specifically tobacco/vaping, alcohol, diet/nutrition, physical activity
4. Mental health and addiction – specifically poor mental health and drug and alcohol addiction

B. COMMUNITY SERVED

JTDMH is located in a rural small town environment dominated by agriculture and small manufacturing. JTDMH’s “community served” has been identified as residents of Auglaize and Mercer Counties, which include the following areas.

County Municipalities ¹	County ZIP Codes	2020 Hospital Admissions ²	2021 Hospital Admissions ²
Auglaize County		907 / 46%	999 / 37%
Buckland	45819		
Minster	45865		
New Bremen	45869		
New Hampshire	45870		
New Knoxville	45871		
Saint Johns	45884		
Saint Marys	45885		
Uniopolis	45888		
Wapakoneta	45895		
Waynesfield	45896		

County Municipalities ¹	County ZIP Codes	2020 Hospital Admissions ²	2021 Hospital Admissions ²
Mercer County		569 / 29%	615 / 23%
Burkettsville	45310		
Celina	45822		
Chickasaw	45826		
Coldwater	45828		
Fort Recovery	45846		
Maria Stein	45860		
Mendon	45862		
Montezuma	45866		
Rockford	45882		
Saint Henry	45883		
Total Admissions from Service Area		1,476 / 76%	1,614 / 60%
Total Hospital Admissions		1,953	2,695

²Source: Ohio Department of Health Hospital Registration Information (n.d.). Retrieved from https://publicapps.odh.ohio.gov/eid/Detail_AHR.aspx, on April 18, 2022.

The Ohio Department of Health requires each hospital that is registered in Ohio to file an Annual Hospital Registration and Planning Report by March 1 of each year of data for the previous calendar year. A review of the patient origin data from the Annual Hospital Registration and Planning Report for JTDMMH for 2020 and 2021 supports the definition of the “community served” as being the community and residents of Auglaize and Mercer Counties, Ohio. For 2020, 76% of admissions and for 2021, 60% of admissions reside in Auglaize and Mercer Counties at the time of admission.

C. DEMOGRAPHICS AND COMMUNITY RESOURCES

DEMOGRAPHICS

Population. In 2020, Auglaize County had a population of 46,422. The Auglaize County population is projected to decrease to 44,690 by 2030 and to 44,430 by 2040. In 2020, Mercer County had a population of 42,528. The Mercer County population is projected to decrease to 41,230 by 2030 and to 40,960 by 2040.

Race/Ethnicity. In 2020, among Auglaize County residents, 96.5% are White, 0.6% are African-American, 0.5% are Asian, 0.2% are Native American, 0% are Pacific Islander, 0.9% are from other races, 1.3% are from two or more races and 1.7% are Hispanic of any race. The total minority population is 4.4% or 1,993. In 2020, among Mercer County residents, 97.0% are White, 0.8% are African-American, 0.6% are Pacific Islander, 0.6% are Asian, 0% are Native American, 0.3% are from other races, 0.7% are from two or more races, and 1.9% are Hispanic of any race. The total minority population is 4.6% or 1,890.

Age. In 2020, among Auglaize County residents, 6.3% are under 5 years of age, 17.9% are 5-17 years of age, 8.0% are 18-24 years of age, 22.5% are 25-44 years of age, 27.4% are 45-64 years of age, and 17.9% are 65 years of age or more. The median age was 41.1 years. In 2020, among Mercer County residents, approximately 7.1% are under 5 years of age, 18.6% are 5-17 years of age, 8.2% are 18-24 years of age, 21.9% are 25-44 years of age, 26.8% are 45-64 years of age, and 17.3% were 65 years of age or more. The median age was 39.6 years.

Income. In 2020, among Auglaize County residents, Median household income is \$64,074 and 6.7% have family income below poverty level. Among Mercer County residents, median household income is \$62,952 and 4.2% have family income below poverty level.

Education. In 2020, among Auglaize County residents, of persons 25 years of age and over, 7.3% have no high school diploma, 43.5% are a high school graduate, 19.3% have some college but no degree, 11.0% have an Associate degree, 11.7% have a Bachelor’s degree, and 7.2% have a Master’s degree or higher. Among Mercer County residents, of persons 25 years of age and over, 7.9% have no high school diploma, 45.3% are a high school graduate, 17.2% have some college but no degree, 11.3% have an Associate degree, 11.4% have a Bachelor’s degree, and 6.9% have a Master’s degree or higher.

D. DESCRIPTION OF SIGNIFICANT HEALTH NEEDS OF THE COMMUNITY

On June 23, 2022, JTDMH convened the CHNA Steering Committee to review data and information provided in this report, identify and prioritize significant health needs of the community, and identify actions and resources to address the needs. The significant health needs of the Auglaize and Mercer County community and description of those significant health needs are provided in the table below, in prioritized order (refer to Exhibit D for data sources and dates):

Social Determinants of Health #1

Community leaders identified social determinants of health, specifically housing/homeless, diversity/equity/inclusion/culturally sensitive care, and maternal and pediatric care, as the number one priority.

- High school graduation rate is 86.6% for Auglaize County (AC) and 91.6% for Mercer County (MC), compared to 87.3% for Ohio
- Preschool enrollment is 47.24% for AC and 49.72% for MC, compared to 45.49% for Ohio
- Unemployment rate is 2.5% for AC and 2.2% for MC, compared to 3.5% for Ohio
- Income inequality value is .40 for AC and .39 for MC, compared to .47 for Ohio (values 0-1 with 0 being perfect equality)
- Population below 100% poverty level is 8.38% for AC and 6.43% for MC, compared to 13.60% for Ohio
- Social vulnerability index is .05 for both AC and MC, compared to .44 for Ohio
- Children in poverty is 9% for both AC and MC, compared to 18% for Ohio
- Housing cost burden is 18% for both AC and MC, compared to 26% for Ohio
- Housing with one or more substandard conditions is 20% for both AC and MC, compared to 27% for Ohio
- Area of deprivation index (1-100 with 1 being least disadvantaged) is 59 for both AC and MC, compared to 62 for Ohio
- Population by race other than white is 3% for both AC and MC
- Preterm births (< 37 weeks) is 9.5% for AC and 8.4% for MC, compared to 10.4% for Ohio
- Infant mortality/1000 live births is 5.0 for AC and 5.7 for MC, compared to 7.2 for Ohio
- Pregnancy associated maternal morbidity is 2 (2008-2016) for AC and MC each, compared to 12.2 - 18.8 for Ohio

Access to Care #2

Community leaders identified access to care, specifically mental health providers, screenings for adults and children, Medicaid providers of dental services, and Alzheimer's dementia units, as the number two priority.

- Uninsured population is 6% for both AC and MC, compared to 8% for Ohio
- Primary care physicians are 2,410:1 for AC and 2,160:1 for MC, compared to 1,300:1 for Ohio
- Dentists are 2,850:1 for AC and 3,170:1 for MC, compared to 1,560:1 for Ohio
- Mental health providers are 2,080:1 for AC and 1,110:1 for MC, compared to 380:1 for Ohio
- Mammography screenings are at 21% for AC and 31% for MC, compared to 33% for Ohio
- Diabetes management is 85.29% for AC and 84.49% for MC, compared to 88.12% for Ohio
- There are 9 nursing homes in AC and 6 in MC

Health Behaviors #3

Community leaders identified health behaviors, specifically tobacco/vaping, alcohol, diet/nutrition, and physical activity to address obesity, heart disease and stroke, as the number 3 priority.

- Adult smoking/tobacco use is 20.4% for AC and 20.6% for MC, compared to 21.3% for Ohio
- Obesity rate is 38.9% for AC and 30.7% for MC, compared to 33.1% for Ohio
- Food environment index (out of 10 being best) is 8.7 for AC and 8.9 for MC, compared to 6.8 for Ohio
- Food insecurity is 10% for AC and MC, compared to 14% for Ohio
- Physical inactivity is 23.4% for AC and MC, compared to 24.9% for Ohio
- Access to exercise opportunities is 78% for AC and 66% for MC, compared to 84% for Ohio
- Heavy alcohol consumption is 19.61% for AC and 21.18% for MC, compared to 18.48% for Ohio
- Medicare recipients with heart disease is 34% for AC and 29.6% for MC, compared to 27.5% for Ohio
- Coronary heart disease mortality/100,000 is 134.3 for AC and 217 for MC, compared to 103.2 for Ohio
- Chronic high blood pressure is 63% for AC and 59.7% for MC, compared to 59.5% for Ohio
- Stroke mortality/100,000 is 46.1 for AC and 37.6 for MC, compared to 41.8 for Ohio

Mental Health and Addiction #4

Community leaders identified mental health and addiction, specifically poor mental health and drug and alcohol addiction, as the number 4 priority.

- Poisoning mortality, especially from drug overdose/100,000 is 12.8 for AC and 12.3 for MC, compared to 39.4 for Ohio

- Suicide mortality / 100,000 is 10.8 for AC and 10.5 for MC, compared to 14.6 for Ohio
- Poor mental health days is 4.5 for AC and 4.6 for MC, compared to 4.8 for Ohio
- Frequent mental distress is 15% for AC and MC, compared to 16% for Ohio
- Heavy alcohol consumption is 18.61% for AC and 21.18% for MC, compared to 18.48% for Ohio

E. PROCESS OF OBTAINING DATA

JTDMH contracted with INCompliance Consulting to assist in conducting their CHNA. INCompliance Consulting identified data sources and indicators which reflect a healthcare issue that is pertinent to the community and came from sources that are reliable and are likely to be available in the future. The consultant identified areas of concern from the data sources by comparing Auglaize County and Mercer County data to state and national data for the metric and health issues that were identified by multiple data sources.

The INCompliance Consultant utilized the American Hospital Association’s Community Health Assessment Toolkit (the “Toolkit”) in compiling the data. The Toolkit suggests that comprehensive community health assessments include a thorough review of the data regarding a range of population health indicators. Data should reflect clinical and non-clinical factors that impact health and provides suggested key metrics that can be found in the County Health Rankings & Roadmaps Model. The Data Analysis in Appendix D includes data for those key metrics as well as priority factors and outcomes identified in the 2020-2022 State Health Improvement Plan.

The INCompliance Consultant identified a lack of data on vaping and Alzheimer’s/dementia units as data information gaps. However, members of the CHNA Steering Committee with experience in these areas recounted their involvement with and understanding of these health needs in the community.

The data summary in Appendix C and data analysis in Appendix D were provided to the CHNA Steering Committee on June 6, 2022. The CHNA Steering Committee members were asked to review the data and, based on their experience within the community, identify the top three community health needs impacting the health of the Auglaize and Mercer County community.

The results of votes were discussed during the June 23, 2022 Community Forum where the significant health needs of the community were identified and prioritized. A summary of data, with dates and sources, is provided in Appendix B, C and D.

F. PROCESS FOR IDENTIFYING AND PRIORITIZING SIGNIFICANT COMMUNITY HEALTH NEEDS AND RESOURCES TO MEET THE SIGNIFICANT COMMUNITY HEALTH NEEDS

The consultant from INCompliance Consulting identified demographic information and community data for Auglaize and Mercer Counties to be considered in determining the significant health needs of the community. The data summary (Appendix C) and data analysis

(Appendix D) were provided to the Steering Committee members on June 6, 2022. The Steering Committee were asked to review the data and, based on their experience within the community, identify the top three community health needs.

The results of the voting on the top community health needs are identified in the table below:

Votes	General Health Factor	Specific Community Health Needs
10	Access to care	Mental health providers Transportation Screenings Dental services Marketing for maternal and infant services Long-term care services for Medicaid recipients Long-term care ventilator units Long-term care Alzheimer's/dementia units Support for kinship care
5	Social determinants of health	Housing Diversity/equity/inclusion Maternal and pediatric care
5	Health behaviors to address obesity, heart disease and stroke	Tobacco Alcohol Diet/nutrition Physical activity
2	Mental health and addiction	Poor mental health Drug and alcohol addiction

IDENTIFY SIGNIFICANT COMMUNITY HEALTH NEEDS

The Steering Committee met on June 23, 2022. One member who was unable to attend in person participated via Zoom platform. The meeting opened with a review of the CHNA process. The top community health needs identified by the Steering Committee members prior to the meeting (table above) were discussed.

Through discussion, common themes were identified and significant health needs were chosen. In identifying the significant health needs of the community, the Steering Committee considered the following criteria:

- Most prevalent throughout the community
- Magnitude of the need – impact on the community
- Involvement of vulnerable populations

The following table identifies the significant community health needs for Auglaize and Mercer Counties:

General Significant Health Factor	Significant Community Health Need
Access to care	Mental health providers Screenings for adults and children

	Medicaid providers for dental services Alzheimer's/dementia units
Social determinants of health	Housing/homeless Diversity/equity/inclusion/culturally sensitive care Maternal and pediatric care
Health behaviors to address obesity, heart disease and stroke	Tobacco/vaping Alcohol Diet/nutrition Physical activity
Mental health and addiction	Poor mental health Drug and alcohol addiction

PRIORITIZING SIGNIFICANT COMMUNITY HEALTH NEEDS

The Steering Committee then prioritized the significant health needs using the following criteria:

- Severity or urgency of the health need
- Health disparities associated with the need
- Importance the community places on addressing the need

After discussion of the significant health needs and consideration of the impact that social determinants of health have on an individual's health and access to health care, the Steering Committee prioritized the significant health needs as follows:

1. Social determinants of health – specifically housing and homeless, diversity/equity/inclusion/culturally sensitive care, maternal and pediatric care
2. Access to care – specifically mental health providers, health screenings for adults and children, Medicaid providers of dental services, Alzheimer's/dementia units
3. Health behaviors to address obesity, heart disease and stroke – specifically tobacco/vaping, alcohol, diet/nutrition, physical activity
4. Mental health and addiction – specifically poor mental health and drug and alcohol addiction

RESOURCES TO MEET SIGNIFICANT COMMUNITY HEALTH NEEDS

During discussion of the potential actions to address the significant health needs, the steering committee identified existing and developing resources within the community potentially available to address the significant health needs.

Resources potentially available to address the significant health needs are listed in the following table:

<p>Social determinants of health – specifically housing and homeless, diversity/equity/inclusion/culturally sensitive care, maternal and pediatric care</p> <ul style="list-style-type: none"> • Grand Lake Resource Guide – available for distribution and on Grand Lake's web site to provide listing of resources available to the community

- Possible development of 211 call number or other source to provide information on resources based on ZIP code (currently available in Lima and Allen Counties)
- Candle of Hope – Coalition to develop a mobile app for providers to identify Auglaize County resources available for referral to address homelessness
- Mercer County Resource Guide
- FindHelp.org – resources available by ZIP code
- Local Help Now – Tri County ADAMHS Board
- Local food pantries
- Mercy Unlimited – food bank
- Community Action Life Line (CALL) – Mercer County food pantry
- Agape Ministries – food bank

Access to care – specifically mental health providers, health screenings for adults and children, Medicaid providers of dental services, Alzheimer’s/dementia units

- JTDMH – community health fair, school, and employer health screenings (including cancer and diabetes) and education on nutrition and food choices
- JTDMH speaker bureau – education to the community through speaking engagements, events, web site, and social media outlets
- JTDMH discounted lab work, vendors, and dentists
- JTDMH Wellness Program
- JTDMH distribution of colorectal screening kits
- JTDMH Women’s Preventative Health
- JTDMH Grand Health Challenge – making healthy lifestyle choices
- JTDMH incentives for completion of prevention screening
- Health observances – days or months devoted to the observance of healthy lifestyle choices promoted by the Auglaize County Health Department and Grand Lake Health System through social media
- Grand Lake Physician Practice reminder letters for child wellness and teen immunizations
- Immunization education provided by the Auglaize County Health Department and Grand Lake Health System through social media
- Auglaize County and Mercer County Health Departments
- The Ohio State University Extension Office
- The Navigator in-home newsletter
- Free prostate screening
- Veterans Service Center
- Employer sponsored health fairs
- Area Agency on Aging for long-term care services and supports
- Elder Abuse Program at Area Agency on Aging

Health behaviors to address obesity, heart disease and stroke – specifically tobacco/vaping, alcohol, diet/nutrition, physical activity

- JTDMH Chronic Care Program to help patients with chronic care health needs to maintain a healthy lifestyle and prevent exacerbation of health condition

- Total Care Management – Grand Lake Physician Practice patient follow-up after discharge
- IMind Program – child referrals by schools and parents for sessions on vaping and substance abuse prevention offered through Prevention Awareness Support Services in Auglaize County
- Auglaize County Health Department education on tobacco cessation
- JTDMH Wellness Center for those 50 years of age and older and students
- The Auglaize and Mercer Counties Drug Coalition – review drug activity statistics, propose methods of prevention, and provide education to the community
- DARE education – teaching students decision making for safe and healthy living
- DARE / Auglaize County Task Force on vaping specific behaviors
- Grand Lake Health System Healthsmart
- Access to healthy food through community gardens and farmers markets
- JTDMH Grand Health Challenge
- Road to Fitness
- Mercer Health 5K Challenge
- Mercer Weight Management Clinic
- St. Rita’s Weight Management Program in Allen County
- JTDMH diabetes and pre-diabetes support groups
- Area Agency on Aging educational classes and individual nutrition assessments
- Local pediatrician offices – education on proper portion size
- JTDMH speaking engagements on food labels and portion control
- Wellness Programs through local businesses
- Grand Lake Wellness Center
- Fitness Hub– fitness training
- YMCA
- SNAP Fitness
- Wapak Athletic Club
- JTDMH Cardiac Wellness Program

Mental health and addiction – specifically poor mental health and drug and alcohol addiction

- ETHOS for tele-mental health services
- Ohio Rise Program – support for children on Medicaid with education and provider information/referral for behavioral health services
- JTDMH mental health training/certification
- Auglaize County evidence based substance abuse and prevention in schools
- Mercer County Prevention Coalition – dedicated to the prevention and treatment of alcohol, tobacco and other drug abuse problems.
- Bright Heart Health – coordinated efforts with JTDMH, the Department of Mental Health and Substance Abuse, and other organizations to provide a network of providers to ensure appropriate care is received
- Family Resource Center

- Ohio Mental Health and Addiction Services' (Ohio MHAS), News Now, promoting Wellness and Recovery
- Mental Health Recovery Service Board
- Drug Abuse Resistance Education (DARE)
- Horizon Health for inpatient geriatric psychiatry program referrals
- Foundations Behavioral Health Services – community based behavioral health center providing professional counseling and support services to local residents
- House of Hope – provides alcohol and other drug treatment services to those who are most in need
- Local church support
- Screening, brief intervention, and referral to treatment (SBIRT) in primary care settings – an evidence based practice used to identify, reduce, and prevent problematic use, abuse, and dependence on alcohol and other illicit drugs
- JTDMH emergency department screening goals and incentives
- JTDMH outreach in schools to educate on drug abuse programs
- Grand Lake Health System Rehabilitation Wellness Center
- Geropsychiatric unit at JTDMH
- Mental Health First Aide (MHFA) training – teaches how to identify, understand, and respond to signs of mental illnesses and substance use disorders in the community
- Coleman Behavioral Health – provides behavioral health services to adults
- Schools – Gate Keepers/mental health professionals/Social Counselors – providing direct service or appropriate referrals to mental health services
- Catholic Social Services
- JTDMH Employee Assistance Program
- Employee assistance programs of local businesses
- Pastoral counseling
- Centers for Personal Wellness – Counseling Services
- Bereavement support group and one on one counseling

G. PROCESS FOR CONSULTING WITH PERSONS REPRESENTING THE COMMUNITY INTERESTS

Persons representing the broad interests of the community, including those with knowledge of or expertise in public health, participated in the CHNA process as members of the CHNA steering committee. Please refer to Appendix A for participating organizations, the groups represented by each organization, and type of input provided. Section F describes how the persons representing the community’s interests were consulted.

Community input was obtained from all required sources.

No written comments were received on the previously conducted CHNA.

H. EVALUATION OF IMPACT OF ACTIONS IN PRIOR CHNA

The 2019 CHNA for JTDMH identified drug and alcohol abuse, mental health, obesity, education, prevention and health promotion, and socioeconomic factors – transportation, housing and nutritional needs as the significant health needs of the community served. JTDMH chose to address all significant needs in the 2019 Implementation Strategy covering 2020, 2021, and 2022. Please refer to Appendix E for an evaluation of the impact of actions taken in addressing these significant health needs.

I. COLLABORATING PARTNERS

JTDMH collaborating with organizations represented on the CHNA Steering Committee identified in Appendix A to conduct this CHNA.

JTDMH engaged Bricker & Eckler LLP/INCompliance Consulting, located at 100 South Third Street, Columbus, Ohio, to prepare this CHNA report. Jim Flynn is a partner with Bricker & Eckler’s Health Care group, where he has practiced for 31 years. His general healthcare practice focuses on health planning matters, certificate of need, non-profit and tax-exempt healthcare providers, and federal and state regulatory issues. Mr. Flynn has provided consultation to healthcare providers, including non-profit and tax-exempt healthcare providers and public hospitals on community health needs assessments. Christine Kenney is the director of Regulatory Services with INCompliance Consulting, an affiliate of Bricker & Eckler LLP. Ms. Kenney has over 42 years of experience in healthcare planning, policy development, federal and state regulations, certificate of need, and Medicare and Medicaid certification. She provides expert testimony on community need and offers presentations and educational sessions regarding community health needs assessments. She has been conducting community health needs assessments in accordance with the affordable care act requirements since 2012.

J. SOLICIT WRITTEN COMMENTS

Written comments concerning this CHNA report and related Implementation Strategy may be submitted to Lesia Arnett, Executive Director of Development, Marketing & Outreach, Joint Township District Memorial Hospital, 200 St. Clair Street, St. Marys, Ohio 45885 or larnett@JTDMH.org. Any written comments received will be considered in conducting the next CHNA. You may contact Lesia Arnett at 419-394-6354 or larnett@JTDMH.org to obtain a copy of this CHNA report at no charge.

K. ALIGNMENT WITH OHIO DEPARTMENT OF HEALTH 2020-2022 STATE HEALTH IMPROVEMENT PLAN

The Ohio Department of Health (ODH) identified three priority factors and three priority health outcomes in the 2020-2022 State Health Improvement Plan (SHIP):

SHIP Priority Factor	SHIP Priority Health Outcome
Community Conditions <ul style="list-style-type: none">Housing affordability and quality	Mental Health and Addiction <ul style="list-style-type: none">Depression

<ul style="list-style-type: none"> • Poverty • K-12 student success • Adverse childhood experiences <p>Health Behaviors</p> <ul style="list-style-type: none"> • Tobacco/nicotine use • Nutrition • Physical Activity <p>Access to Care</p> <ul style="list-style-type: none"> • Health insurance coverage • Local access to health care providers • Unmet need for mental health care 	<ul style="list-style-type: none"> • Suicide • Youth drug use • Drug overdose deaths <p>Chronic Disease</p> <ul style="list-style-type: none"> • Heart disease • Diabetes • Childhood conditions (asthma, lead) <p>Maternal and Infant Health</p> <ul style="list-style-type: none"> • Preterm births • Infant mortality • Maternal morbidity
---	--

As part of the alignment process, ODH encourages hospitals and local health districts to select priority factors and outcomes from the SHIP to address in the collaborative community health improvement plan/implementation strategy. However, the final priority health needs selected by the hospitals and local health districts should be guided by the needs identified through the data collection and analysis for the community served. As such, the CHNA steering committee, through review of the data and discussion, identified the following significant health need for Auglaize and Mercer Counties that align with the ODH SHIP priorities:

JTDMH Significant Health Need	Alignment with SHIP Priority
Social determinants of health – housing	Community conditions – housing affordability and quality
Social determinants of health – maternal and pediatric care	Maternal and infant health – preterm births, infant mortality, maternal morbidity
Access to care – mental health providers, Medicaid providers for dental services	Access to care – local access to healthcare providers, unmet need for mental health care
Health behaviors impacting heart disease and stroke	Chronic disease – heart disease
Health behaviors – tobacco/vaping, diet/nutrition, physical activity	Health behaviors – tobacco/nicotine use, nutrition, physical activity
Mental health and addiction – poor mental health, drug addiction	Mental health and addiction – depression, suicide, youth drug use, drug overdose deaths

APPENDIX A

Member Organizations of the JTDMH CHNA Steering Committee

Organization/Participants	Populations Represented	Pre-meeting Input on Health Needs	Attended June 23, 2022 Steering Committee Meeting
Grand Lake Health System	All populations of Auglaize and Mercer Counties, including the medically underserved, low-income, and minority populations		
Cindy Berning – CEO		X	X
Lana Hinders – Chief Nursing Officer		X	X
Julie Jacobs – Director of Foundation			X
Holly Jacomet – VP of Quality and Physician Practices			X
Katherine Tester – Performance Improvement Specialist		X	X
Heather Jurosic – PCMH Health Coordinator			X
Jenna Fonseca			X

County Health Rankings and Roadmaps

The following table of metrics from County Health Rankings & Roadmaps includes key metrics, including identified areas to explore, worsening trends, and areas of strength. While the focus is on 2022 data, 2019 data is included for comparison.

Red indicates areas to explore.

Purple indicates worsening trends.

Blue indicates areas of strength.

Auglaize and Mercer Counties are ranked among the healthiest counties in Ohio for Health Outcomes and Health Factors.

Measure (Dates of data for 2022)	Auglaize County 2019	Auglaize County 2022	Mercer County 2019	Mercer County 2022	Ohio 2019	Ohio 2022
Length of Life						
Premature death before age 75 /100,000 (2017-2019)	6,300	5,700	6,800	5,800	8,500	8,500
Quality of Life						
Poor or fair health (2018)	14%	16%	14%	16%	17%	18%
Poor physical health days (2018)	3.6	3.8	3.4	3.9	4	4.1

Some other race	8.75%	0.0%	19.53%	20.38%
Multiple race	8.03%	0.0%	6.74%	7.67%
Population receiving SNAP (2017)	6.1%	4.7%	12.3%	12.5%
Social vulnerability index (high poverty, low% of vehicle access, crowded households, etc.) (2018)	.05	.05	.44	.40

Indicator	Auglaize County	Mercer County	Ohio	U.S.
Teen births female age 15-19 / 1,000 (2013-2019)	22.8	18.2	22.3	20.9
Violent crime /100,000 (2014-2016)	74.80	86.20	290.70	416.0
Air & water quality- days exceeding standards (2016) Poor air quality contributes to respiratory issues and overall poor health.	0	0	0	0
Broadband access (2020)	98.74%	100%	99.04%	97.54%
Recreation and fitness facility access / 100,000 (2019)	13.06	Suppressed	10.22	12.23
Food desert census tracts / population (2019)	0 / 0	1/ 4,602	421/ 1,504,341	9,293/ 39,074,974
SNAP authorized food stores / rate per 10,000 (2021)	35 / 7.66	26 / 6.30	9,878 / 8.45	248,526 / 7.47
Clinical care and prevention				
Cancer screening – mammogram female Medicare enrollees (2019)	21%	31%	33%	33%
Diabetes management – hemoglobin A1c test Medicare enrollees with diabetes (2017) Engaging in preventive behaviors allows for early detection and treatment of health problems. Can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.	85.29%	84.89%	88.12%	87.31%
Health behaviors				
Heavy alcohol consumption (2018) Alcohol use is a behavioral health issue that is also a risk factor for a number of negative health outcomes, including physical injuries related to motor vehicle accidents, stroke, chronic diseases and mental health conditions.	19.61%	21.18%	18.48%	19.17%
Physical inactivity (2019) Current behaviors are determinants of future health and may illustrate a cause of significant health issues, such as obesity and poor cardiovascular health.	23.4%	23.4%	24.9%	22.0%
STI – chlamydia incidence/100,000 (2018)	253.4	173.7	542.3	539.9
STI – HIV prevalence / 100,000 (2018)	42.1	51.0	227.7	372.8
Tobacco use – current smokers (2019)	20.4%	20.6%	21.3%	15.3%
Insufficient sleep < 7 hours (2018)	36.6%	37.7%	39.5%	35.7%
Health outcomes				
Cancer incidence – all sites / 100,000 (2014-2018)	437.1	454.6	467.5	448.6
Chronic asthma, Medicare enrollees (2018)	2.8%	2.1%	4.8%	5.0%

Indicator	Auglaize County	Mercer County	Ohio	U.S.
Chronic adult diabetes age adjusted (2019) Diabetes is a prevalent problem and may indicate an unhealthy lifestyle and puts individuals at risk for further health issues.	8%	8.5%	9.8%	9.0%
Heart disease – Medicare enrollees (2018)	34%	29.6%	27.5%	26.8%
Chronic high blood pressure – Medicare enrollees (2018)	63%	59.7%	59.5%	57.2%
Low birth weight (2013-2019)	7.1%	5.4%	8.6%	8.2%
Cancer mortality age-adjusted death rate /100,000 (2015-2019) Cancer is a leading cause of death in the U.S.	152.2	161.4	169.5	152.3
Coronary heart disease mortality age-adjusted rate /100,000 (2015-2019) Coronary heart disease is a leading cause of death in the U.S.	134.3	217.0	103.2	92.6
Poisoning Mortality / 100,000 (2015-2019) Poisoning deaths, especially from drug overdose, are a national public health emergency	12.8	12.3	39.4	21.6
Lung disease mortality age-adjusted death rate /100,000 (2015-2019) Lung disease is a leading cause of death in the U.S.	42.5	30.8	48.1	40.2
Motor vehicle crash mortality / 100,000 (2015-2019) Motor vehicle crash deaths are preventable and are a cause of premature death	11.1	11.8	10.2	11.3
Premature death mortality /100,000 (2017-2019) Measure of premature death can provide a unique and comprehensive look at overall health status	5,718	5,756	8,555	6,943
Stroke mortality age-adjusted death rate /100,000 (2015-2019) Stroke is a leading cause of death in the U.S.	46.1	37.6	41.8	37.3
Suicide mortality age-adjusted death rate/100,000 (2015-2019) Suicide is an indicator of poor mental health	10.8	10.5	14.6	13.8
Unintentional injury mortality age-adjusted death rate /100,000 (2015-2019) Accidents are a leading cause of death in the U.S.	37.9	42.6	65.8	47.5
Obesity adults with BMI>30 (2019) Excess weight may indicate an unhealthy lifestyle and puts individuals at risk for further health issues	38.9%	30.7%	33.1%	27.6%
Poor or fair health (2019)	18.9%	19.0%	20.3%	18.6%

Indicator	Auglaize County	Mercer County	Ohio	U.S.
COVID-19 mortality death rate /100,000 as of 02/02/2022 (2022)	344.95	280.77	286.86	267.86
COVID-19 fully vaccinated adults as of 02/01/2022 (2022)	48.7%	48.4%	66.1%	71.7%

Community Assessment for Auglaize and Mercer Counties in Ohio 2019

Prepared by West Ohio Community Action Partnership

Information summarized according to the data strategy from the American Hospital Association Community Health Improvement's Community Health Assessment Toolkit.

Red indicates that the county is performing worse than state average.

Metric	Measure	Auglaize County	Mercer County	Ohio
Health Outcomes				
Length of Life	Median age (2013-2017)	41.1	39.8	39.3
	Age 65 and over (2013-2017)	17%	16.59%	15.89%
	Drug poisoning/100,000 (2012-2016)	10.8	Suppressed	26.22
	Motor vehicle crash /100,000 (2013-2017)	10.7	13.4	9.84
	Suicide /100,000 (2013-2017)	13.5	11.3	13.63
Quality of Life	Population with any disability (2013-2017)	11.24%	10.25%	13.84%
	Poor general health (2006-2012)	16.3%	22.6%	16.1
Health Factors				
Healthy Behaviors	Tobacco use (2006-2012)	17.7%	14.6%	21.7%
	Diet – obesity % adults BMI>30 (2016)	38.6%	34.7%	32.1%
	Exercise – physical inactivity (2016)	29.5%	25.4%	25.4%
	Alcohol & drug use – heavy alcohol consumption (2006-2012)	20.1%	29.9%	18.4%
	Sexual activity – female 15-19 teen births /1,000 (2006-2012)	34.4	25.4	36
Clinical Care	Access to care – uninsured (2013-2017)	4.27%	4.83%	7.41%
	Access to dentist /100,000 (2015)	37.06	29.29	59.1
	Access to mental health – MH provider /100,000 (2017)	41.8	80.7	212.2
	Access to primary care – PCP / 100,000 (2014)	36.22	44	76.7
Social and Economic Factors	Education-Bachelor's degree or higher (2013-2017)	18.48%	16.62%	27.24%
	High school graduation rate (2016-2017)	95.6%	95.5%	90.6%
	Head Start Program rate /10,000 children (2019)	6.48	6.9	8.55
	Employment – unemployment rate (2019)	3.1%	2.7%	4.2%
	Income – median household (2013-2017)	\$70,661	\$70,167	\$71,119
	Income inequality (values between 0 and 1 with 0=perfect equality) (2013-2017)	.39	.41	.46
	Children below 100% federal poverty level (2013-2017)	12.4%	8.3%	21.34%
	Population below 100% federal poverty level (2013-2017)	9.04%	7.43%	14.92%
	Family households (2013-2017)	69.73%	70.12%	63.81%
	Social support – SNAP benefits (2015)	7.6%	5.6%	14%

Metric	Measure	Auglaize County	Mercer County	Ohio
	Community safety – violent crime (2014-2016)	74.8	86.2	290.7
Physical environment	Housing – renter occupied (2013-2017)	24.2%	22.58%	33.94%
	Housing cost burden (2013-2017)	19.67%	20.26%	27.35%

APPENDIX D

Data Analysis

The American Hospital Association’s Community Health Assessment Toolkit¹ suggests that comprehensive community health assessments include a thorough review of the data regarding a range of population health indicators. Data should reflect clinical and non-clinical factors that impact health and provides suggested key metrics that can be found in the County Health Rankings & Roadmaps Model. The following table includes those key metrics as well as priority factors and outcomes identified in the 2020-2022 State Health Improvement Plan. Data is provided from multiple sources, as available.

<p>KEY</p> <p>Data Sources: County Health Rankings and Roadmaps: “RR” Community Commons Community Indicator Report: “CC” 2019 on-line State Health Assessment: “SHA” Ohio Department of Health: “ODH” Centers for Community Solutions: “CS” Community Assessment for Auglaize and Mercer Counties in Ohio 2019: “CA”</p> <p>Highlights: Improvement needed / area to explore Red: Adverse compared to Ohio *Metric identified in the Ohio 2020-2022 State Health Improvement Plan (SHIP)</p>

Evaluation of JTDMH 2020-2022 Implementation Strategy Actions

**COMMUNITY HEALTH NEEDS ASSESSMENT
Implementation Strategy
2020 – 2022**

December 2022 Progress Update

Health Need	Action/Programs/ Resources	Expectations	Evaluation Plan	Partners	2020 -22 Progress Update
<p>Drug & Alcohol Abuse</p> <p>Karen/Lana</p>	<ul style="list-style-type: none"> Provide support to the Medication Assistance Treatment Program (MATP) 	<ul style="list-style-type: none"> Reduced heroin-related incarcerations 	<ul style="list-style-type: none"> Review reports provided by county courts to identify changes. Review of new program referrals & jail assessments completed by JTDMH social worker 	<ul style="list-style-type: none"> Auglaize County court system – Karen Rowland Grant Administrator 	<ul style="list-style-type: none"> JTDMH continues to support the MATP program – a letter of support for 2019 grant application was provided to the Auglaize County Common Pleas Court and Behavioral Health agencies in May 2019. JTDMH has not received an annual program progress report in 2019 or 2020, although we do continue to receive patient referrals to the program. New referrals 2019 = 8; 15 jail assessments completed by Amy Bruns, LISW MATP clinics 2019 = 30 MATP visits 2019 = 52 MATP clinics 2020 = 16 MATP visits 2020 = 18 MATP clinics 2021= 8 MATP visits 2021 = 7 New referrals 2021 = 1; One jail assessment completed by Amy Bruns, LISW Summary of 2021 visits – 1 new referral in June 2021. Patient had 6 of the 7 visits; 1 patient with only 1 visit in early 2021.

Health Need	Action/Programs/ Resources	Expectations	Evaluation Plan	Partners	2020 -22 Progress Update
<p>Megan</p>	<ul style="list-style-type: none"> Collaborate with Coleman to provide peer counselor in ED 	<ul style="list-style-type: none"> Increase access to and awareness of resources to assist with reducing risky behaviors 	<ul style="list-style-type: none"> Continue with telemedicine and response times within 1 hour 	<ul style="list-style-type: none"> Coleman Behavioral Health Coleman Behavioral Health Bright Heart Health Foundations 	<ul style="list-style-type: none"> JTDMH provided continued support to MATP program in 2021 by providing the physician exercising administrative supervision to the program and a social worker to complete the diagnostic assessment for each prospective participant in the program. JTDMH submitted a letter of support for continued funding via JRIG grant in June 2021 at the request of Program Administrator. Per Karen Rowland, Grant Administrator as of 8.17.2021 and last communication from Karen, the program was still in the review process for grant renewal. No update since. JTDMH has not received an annual program progress report in 2019, 2020, 2021, or 2022. Coleman moved to virtual screening. If patient cannot participate then an in-person evaluation will occur. In 2020 we had 115 Coleman responses. In 2021 we had 113 Coleman responses. 2022 YTD through October is 107.

Health Need	Action/Programs/ Resources	Expectations	Evaluation Plan	Partners	2020 -22 Progress Update
			available in the community		<p>impact and temporary closure of unit.</p> <ul style="list-style-type: none"> • Inpatient average daily census (ADC) on Clear Passage through Nov 30, 2022, is 6.34 (We are budgeted at 8.0), compared to 2021 ADC of 7.2. We had challenges throughout the year with COVID outbreaks on the unit which had impacts on census. • Since Sep 2020 238 of the 428 patients were appropriate for and intensive outpatient program following discharge. • Since Sep 2020, 134 of 267 patients were appropriate for intensive outpatient program following discharge. Clear Passage Behavioral Health Unit signed a MOU with the Area Agency on Aging 3 Behavioral Health Program (Stages) for Outpatient Behavioral Health Counseling following discharge to ensure access to outpatient services. • In 2021, a total of 444 inquiries for services; and 209 admissions (47% conversion rate) • Year over year general inquiries re: mental health services (decrease attributed to increased community awareness of

Health Need	Action/Programs/ Resources	Expectations	Evaluation Plan	Partners	2020 -22 Progress Update
					<p>our program via CAC building relationships).</p> <ul style="list-style-type: none"> • Jan 1, 2022, through Nov 2022 we have received 444 inquiries for services and 172 of them have been admitted with a 38.7% conversion rate. Throughout the year we had several inquiries that patients were accepted for admission however during medical clearance they were identified to be COVID positive which we then could not admit. The 172 only reflects patient that were admitted. <ul style="list-style-type: none"> 2019 = 10 2020 = 27 2021 = 3 2022 = 5 • The Clinical Assessment Intake Coordinator added to staff mix in 2021 has positively impacted referral rates, ADC, and community relationships. Expect referral growth and positive impact to ADC. • Adding the Clinical Assessment Intake Coordinator in 2021 has built strong relationships with referral sources.

Health Need	Action/Programs/ Resources	Expectations	Evaluation Plan	Partners	2020 -22 Progress Update
Lesia/Stefanie	<ul style="list-style-type: none"> Provide outreach in schools to educate on drug abuse programs 	<ul style="list-style-type: none"> Increase awareness of mental health resources available in the community and improve the mental health status of those individuals accessing these resources 	<ul style="list-style-type: none"> Contacted the schools to review current plan. Educate students Educate local employers of Mental Health options 	<ul style="list-style-type: none"> GLHS Community Outreach Local School Systems 	<ul style="list-style-type: none"> 8/28/20 Sara Hess spoke to 30 New Knoxville teachers on taking care of themselves – mentally and physically. 9/8/2020 Dr. Torres spoke with school superintendents at ESC on behalf of the Health Dept. regarding mental health for the students. 5/21/21 Provided alcohol awareness education to the students at Fort Recovery Middle School. 5/16/22 Auglaize Co D.A.R.E officer provided drug awareness to New Bremen 3rd graders. 5/20/22 Auglaize Co D.A.R.E officer provided drug awareness to New Knoxville 7th graders. Don Baumer provided alcohol awareness & safety to NK 8th graders. 5/24/22 Mercer Co D.A.R.E officer provided drug awareness to Fort Recovery 7th graders. Don Baumer provided alcohol awareness and safety to 8th graders.
Obesity Shelly (Primary) Karen (Secondary)	<ul style="list-style-type: none"> Support the HealthSmart Program to improve biometrics 	<ul style="list-style-type: none"> Improve Biometrics for program/activity participants 	<ul style="list-style-type: none"> Compare data collection to prior years in major categories. 	<ul style="list-style-type: none"> UMR Aggregate Report Findings 	<ul style="list-style-type: none"> Summary of Health Smart program and screenings for 2020 671 screenings were completed including employees and spouses on the GLHS health plan 285 members included in coaching participation

Health Need	Action/Programs/ Resources	Expectations	Evaluation Plan	Partners	2020 -22 Progress Update
					<p>throughout 2020 with 62.6% engagement</p> <ul style="list-style-type: none"> • General health showed 63.8% of our health insurance members in a low risk category, 28.2% in moderate risk, 8.0% high risk. • Body Mass Index results showed slight improvement. 20.6% are considered at a healthy level, compared to 19.3% last year. In the extreme obesity category, our percentage dropped from 11.0% to 10.7%. • Blood pressure risk levels worsened substantially with 28.3% falling in the “Too High” category. Our blood pressure values are also significantly worse than the UMR book of business normal. • Data reflects a higher amount (68.0%) in the low stress category, compared to last year (64.9%). • 1 member stopped tobacco usage during coaching for an average of \$5816 savings. • Estimated savings from weight coaching totaled \$24,664. • The 2021 Summary of Health Smart program and screenings • 681 screenings were completed including

Health Need	Action/Programs/ Resources	Expectations	Evaluation Plan	Partners	2020 -22 Progress Update
					<p>employees and spouses on the GLHS health plan. 282 Males & 399 Females.</p> <ul style="list-style-type: none"> • Offered a new program called Real Appeal for members which included weight loss and health coaching. 82 participants enrolled and found 74 of those to be in the “At Risk” area. • General health showed 72.8% of our health insurance members in a low risk category, 21.7% in moderate risk, 5.6% high risk. • Body Mass Index results showed slight increase. 21.9% are considered at a healthy level, compared to 20.6% last year. In the extreme obesity category, our percentage dropped from 10.7% to 9.3%. • Levels showed a slight decrease substantially with blood pressure risk dropping to 26.0% from 28.3%. Our blood pressure values are also significantly worse than the UMR book of business normal. • Data reflects a higher amount (65.3%) in the low stress category, compared to last year (68.0%). UMR’s national average compares at (53.7%).
